In many vehicles, the maximum speed at which the vehicle can be safely operated is limited, as by law. However, prior art vehicles do not automatically avoid high speed operation whenever its operation is not authorized, and neither are brakes automatically applied to the vehicle at high speeds. In addition, some prior art vehicles do not automatically avoid high speeds when traveling in reverse, braking is not applied, and headlights are left on. Vehicles having automatic transmissions are not authorized to be driven at high speeds. If the automatic transmission
