The second is an ice cooler that has a very quiet fan and uses extremely low power. The third item is a high quality vehicle lighter that will have your cigarette ready to light quickly. These products would be great for a man cave or even a man cave at your house. I really like the ice cooler because I can set it up in my garage to keep all of my beer cold. The first item is a very clean and quick charger that puts out over 650 mA. The second is an ice cooler that has a very quiet fan and uses extremely low power. The third item is a high quality vehicle lighter that will have your cigarette ready to light quickly. Great little charger but if you want to use a USB port to charge an iPhone 7, it might not be much more current than using the car charger and Apple will throttle the charging on that phone a lot. 6d1f23a050
